WOOD.FLOOR.LOVE

1963

**founded in
the Black Forest**

2023

**#eukula2023
brand relaunch**

WOOD.FLOOR.LOVE – made with  in Germany

We love wooden floors! The new eukula breathes this spirit from every pore and is happy to share its enthusiasm for high-quality natural materials with you. Founded in 1963 in the Black Forest, eukula has always focused on reliable quality, making professionals happy with innovative and easy-to-use products.

We are building on this solid foundation: With clever product innovations, a powerhouse community, a fresh look and a focus on sustainability that we keep in mind with every decision we make.

**Right from
the beginning:
innovative and
high-quality products**

2012

**eukula as part of
Dr. Schutz Group**

With the takeover by Dr. Schutz, many products were reformulated to be solvent-free. 2023 the solvent-free line is further extended to a large number of products.

The eukula community is growing worldwide. Wood flooring professionals from around the world rely on eukula as a reliable partner.

Discover WOOD.FLOOR.LOVE

 **proven quality, new look**

“Above all, we appreciate the many possible combinations of eukula products. Especially in the oil sector, there are undreamt-of possibilities to perfectly combine naturalness with technology, for example in the oil-hardwax-oil structure.”

Danny Koetschau, Managing Director
Koetschau Floors, Germany

“For more than thirty years, we have been using eukula products in the design and finishing of parquet surfaces, always with the best results. When questions arise from time to time, the eukula tech support is always ready to assist us.”

Thomas Martin, Managing Director
Martin Floors, Austria

“We have been using eukula products in our business since our company was founded in 2004. Up until this day, we have been very satisfied with the consistent quality of the products and the great product variety eukula offers.”

Stephan Ankert, Managing Director
Ankert Parkett, Germany

“We do our best to keep our partners happy as well as their customers.”

Dr. Lothar Schutz, Managing Director

“Proven quality and environmentally friendly innovations.”

Dr. David Reindl, Head of R&D

“Sustainable and at eye level from professionals for professionals.”

Ralf Edelmann, Head of Applied Technology and Training

Freedom of choice instead of a full warehouse

flexibility at its best

eukula works on a modular basis – with your expertise you choose exactly what your floor needs. eukula offers you maximum flexibility even when you have little in stock. Because you don't need many products, just the right ones.

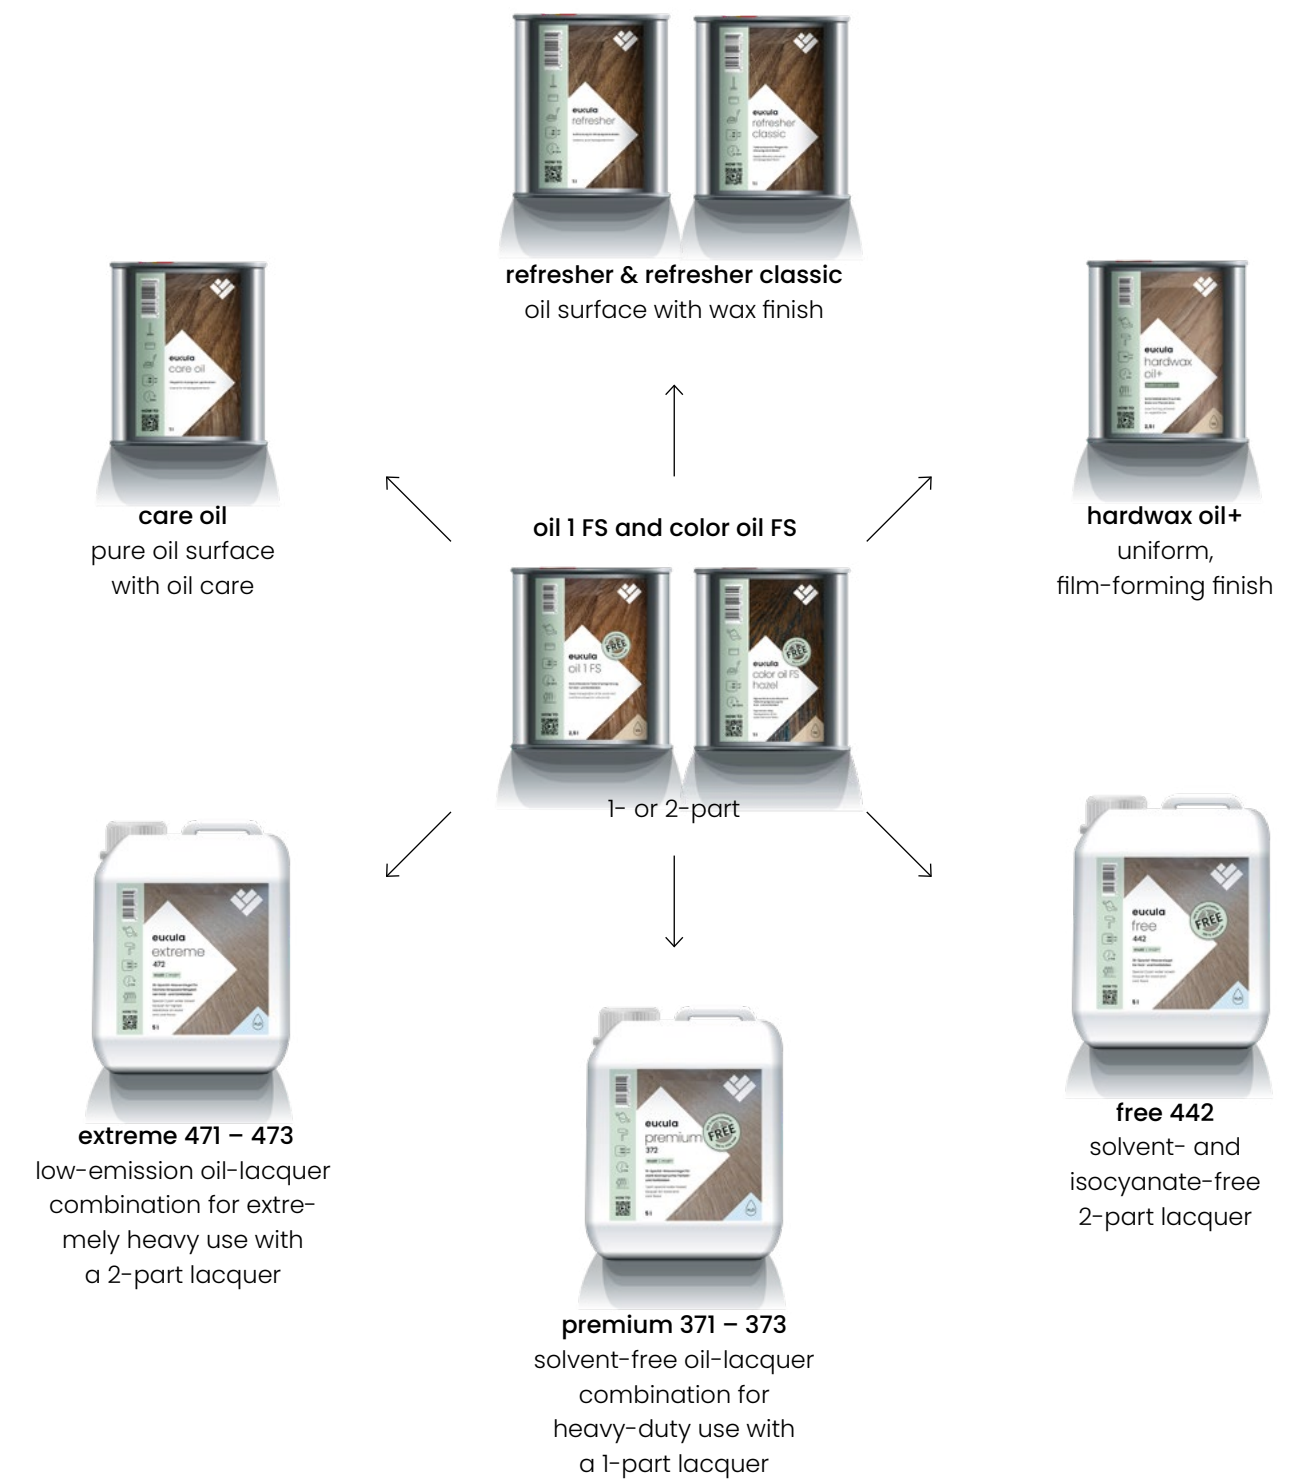

Innovative products for sustainable floors

One oil system for every use

Our multi-talented oils eukula oil 1 FS and color oil FS

1-part or 2-part, natural or colored, can be used for the highest requirements. Treatment with pure care oil or wax finish. Film-forming finish with hard wax oil, also possible as 1- or 2-part.

In oil-lacquer structure with solvent-free 1- or 2-part lacquers, as well as with low-emission 2-part lacquers for extreme requirements.

Create YOUR floor

maximum design variety

From raw wood look to bright colors – your customers' desires are as varied as your design options with eukula! Let even special color and finishes wis-

hes come true and bring even more creativity to your #woodfloorlove!

Exactly your floor

Even the raw material wood is unique: you won't find this one grain twice in nature. eukula always offers you the right design options for a perfect finish.

Exactly your color

Traditional white or a bright green eco-floor in retail, a wooden floor in a company color or an eye-catcher in a hospitality environment? Every choice is possible – with eukula!

The high-quality eukula color oil FS is available in 12 colors:
White | Pine | Cherry | Red | Coffee | Hazel | Mahogany | Ebony | Light grey | Black | Green | Blue

Exactly for you

In addition to our standard range of color oils, we provide you an extra 40 color recipes which can also be delivered ready-mixed „on demand“, making all your color wishes come true.

Do you also smell nothing?

❖ naturally sustainable

- ♦ eukula offers the possibility of completely solvent-free finishes systems.
- ♦ Whether transparent, color enhancing, just lacquer, oil-lacquer combined or colored – a solvent-free finish is possible in all variations with eukula.
- ♦ eukula free completes the eukula FREE system as the world's first solvent- and isocyanate-free 2-component coating.

reduce your emissions
not your aspirations

**Sustainable products
and systems –
good for you,
good for the floor,
good for the environment.**

Clean air

Our solvent-free systems set an example, not only for a healthy environment, but also for the health of our customers. Whether transparent, color enhancing, pure lacquer, oil-lacquer combination or colored – A solvent-free finish is possible in all variations with eukula.

Together with PLANT-MY-TREE® we are helping to reforest many areas around Europe: For every solvent-free product purchased, we donate a tree in the Harz Mountains and sponsor it for 99 years.

sustainable with family values

In 2023, the new eukula embeds sustainability into every aspect of our work. Carbon neutral packaging, solvent-free product formulations as well as carbon dioxide saving and offsetting have been the guiding principles at every step of our relaunch. No green washing, but clear facts: The Dr. Schutz Group is regularly audited by independent institutes. Most recently, the German Institute for Sustainability and Economics scrutinised all our products, supply chains and production conditions and certified our Group as a carbon-neutral company in 2022.

Created with your trade in mind

❖ by professionals for professionals

- ◆ With us you know who you are dealing with. As a family business, we are your reliable partner and always have time for you!
- ◆ We listen and stay close to the market, as we take up your ideas and follow them. Because we want you to be successful!
- ◆ We know what is important to you and pay attention to your needs in a fair partnership!
- ◆ We invest in research and development for sustainable and innovative products that meet your needs.
- ◆ Our carefully developed products and systems are designed to save you valuable time – try for example our „one-day-finish“ system!

We are by your side

... and just as crazy about wood as you are

Like everywhere else, the challenges in our trade are constantly increasing. Orders have to be completed faster and more carefully than ever before. The demands on the product and the service are growing all the time.

As a consequence, we believe that a strong partner is all the more important for you as a professional.

That's why our experienced team of experts is always at your side, with competence and know-how- and just as crazy about wood as you are.

We don't just sell products, but offer our help, based on many years of experience. Thanks to our professional assistance and know-how, you are always one step ahead in the game!

Designed for you

Everything you need to know at a glance

Thanks to the new front, you always have the right application in view - clearly structured and with internationally understandable application icons.

The eukula water-based lacquer system

naturally yours

Our water-based lacquer systems are based on decades of experience. They stand for a low-emission, layer-forming surface treatment that can withstand extreme wear and tear. Ease of application

and a sustainable use of our resources are naturally given, because innovation and tradition are the foundation for a successful trade tomorrow:

eukula nature 484

2-part water-based lacquer for a natural look „like untreated“

Gives wooden floors a consistently matt appearance – even in strong sunlight – and a micro-rough feel that conveys the feeling of untreated raw wood.

 **natural look**

 **barefoot friendly**

 **ceramic reinforced**

eukula free 442

2-part water-based lacquer for wood and cork floors

The world's one and only solvent and isocyanate-free 2-part lacquer combines sustainability and technical innovation. Whether as a pure lacquer structure, or in a solvent-free oil-lacquer system, with eukula free 442 you have maximum flexibility, combined with the best indoor air quality and durability.

 **solvent & isocyanate free**

 **unique technology**

 **easy application**

eukula premium 372

1-part water-based lacquer for wood and cork floors exposed to heavy wear and tear

This strong, water-based polyurethane lacquer guarantees high abrasion resistance, ease of sanding, as well as the highest level of safety in residential and commercial areas.

 **solvent-free**

 **suitable for toys**

 **saliva-proof**

 **easy application**

The eukula oil system for naturally beautiful floors

Oils have protected natural wood surfaces for centuries. Thanks to our latest developments, solvent-free oils are more efficient than ever before and still good for people and the environment!

This is where maximum sustainability meets innovative technologies for your perfect wooden floor.

eukula oil 1 FS

Natural oil-based deep impregnation for wood and cork floors

This full-solid oil with a natural, open-pored character can be used on all sanded floors in residential and commercial areas, on all European and North American types of wood, as well as cork and many exotic woods.

solvent-free

long open time

does not form layers

suitable for toys

Tip: Both 1-part and 2-part applications are possible. Suitable for the treatment of children's toys according to EN 71-3.

eukula hardwax oil+

Layer-forming oil based on vegetable oils

The perfect professional product for easy-to-maintain surfaces with a natural appearance. One of the world's fastest drying hard wax oils, both for the initial treatment and the renovation of wooden floors.

easy application

natural look

fast drying

suitable for toys

Tip: Thanks to our hard wax oil's very fast drying capacity, every wood, cork or OSB boards floor can be protected even with two applications in just one day!

Additives of the highest quality - Further upgrade options for your eukula hardwax oils

raw wood look

eukula hardwax nature add

This additive has the effect to make the treated floor look even more natural, giving it a look and feel like untreated. For ease of application, the additive is provided in liquid form.

more slip resistance

eukula hardwax antislip add R10

The antislip R10 additive gives the treated floor a slip-resistance class of R10, according to BGR 181 and DIN 51130. Without this additive, the surface treated with premium hard wax oil+ corresponds to slip resistance class R9.

eukula color worlds

50 shades of color for your floor art

eukula color oil FS

Pigmented natural oil-based deep impregnation for wood and cork floors

For even more creative designs, the 12 standard colors, as well as eukula oil 1 FS, can be combined with each other to create a color of your choice to mix a total of 40 additional colors.

White | Pine | Cherry | Red | Coffee Hazel | Mahogany | Ebony | Light grey | Black | Green | Blue

Tip: Both 1-part or 2-part applications are possible. Easy mixing of extra colors.

 solvent-free

 long open time

 can be lacquered over

eukula conditioners – for a perfect pre-treatment

eukula classic lye conditioner

Water-based special lye for softwoods and hardwoods

For the classic Scandinavian pre-treatment of softwoods before oiling. Strong honey tone. For hardwoods (such as oak) warm, amber coloring.

eukula oak antique conditioner

Water-based special lye for hardwoods

Pre-treatment before oiling to achieve an antique effect. Intensifies the color appearance of oak.

eukula oak iron conditioner

Water-based special lye with smoked effect for hardwoods

Pre-treatment before oiling for blackening the tannins, especially in oak wood. Color effect similar to smoked oak.

 solvent-free

 2 in 1 - moistening and color enhancing

eukula master FS

Reactive finish

eukula oil 1 FS, eukula oil 2+ FS, eukula color oil FS as well as eukula hardwax oil+ can be used in combination with the eukula master FS to form 2-part oils of the highest quality, thus providing improved oil hardening properties and surface resistance.

 solvent-free

 increased resistance

 2nd component for all eukula oils

 environmentally friendly

	 To achieve maximum durability, add master FS to the oil systems in a mixing ratio of 10:1. In the case of a hard wax oil build-up, we also recommend a further coat to increase the film thickness.			

More detailed information can be found on eukula.com in our current product information and our technical information sheets.

Combine oil & lacquer to get the best of both worlds

With eukula oil 1 FS as a primer, followed by an eukula water-based lacquer, the warm and natural look of an oil and the durability of a lacquer can be combined. The oil protects the wood in depth from external influences such as water and dirt, while the lacquer protects the surface from wear and tear. In addition, the surface can be equipped with special properties, such as R10. Would you like a little more color? Then simply use eukula color oil FS as a primer coat.

Choose a 1-part or a 2-part lacquer according to your needs, as all our lacquers can be combined with eukula oil 1 FS or eukula color oil FS.

The result is a perfect surface that combines the strengths of two systems in a unique way!

**Strong partners –
Professional products
of both systems offer
even more options and
the best of both worlds**

TIP: Make the build-up completely solvent-free with oil 1 FS and premium 371 – 373 or free 442!

Cleaning and maintenance

Love your wooden floor!

The most beautiful floor will only last if it gets the right care. With our professional products, you are ideally equipped to ensure that your customers' favourite floors remain as beautiful as on day one, even after years of use.

If you have any questions, our technical support team will provide you and your end customers reliable advice on the correct application and maintenance.

By the way: Our cleaning and care products are tested and certified for use on EVERY wood and cork surface, regardless of the systems with which they were originally lacquered, giving you maximum flexibility as well as safety and ease of mind.

You can download the new eukula cleaning and maintenance instructions under www.eukula.com/en/care-instructions

Training and more

You love your craft? So do we!

Learn everything you want to know at our eukula & Laegler seminars, from your first use of a belt sander all the way to the ultimate choice in creative surface designs. In small groups we will hone your techniques and share with you the know-how of our eukula and Laegler experts. After that you can use that knowledge to create great wooden floors! And, whenever things get difficult, we will be there to help and assist you.

With this knowledge under your belt, you will be a fully trained eukula professional! We also offer additional training courses, e.g. on cleaning and maintenance, and special events, to refresh your knowledge and become an even more successful member of our ever-growing eukula community.

Keep your eyes open...
heroes are needed everywhere!

Show your WOOD.FLOOR.LOVE
be totally in love with wood

The new eukula collection is here –
your perfect accessories for every project

Lacquer bucket

The eukula lacquer bucket comes with a practical lid and offers space for three lacquer containers. Thanks to disposable insert bags, the eukula universal bucket can be used again and again. It is also possible to store a 25cm paint roll and its holder when the lid is closed. The sturdy eukula universal bucket with metal handle and plastic grip is the perfect companion on every building site!

Dimensions: 36.7 x 23.7 x 28.6 cm (with lid)
Capacity: max. 17.75 litres (without lid)

Share your #woodfloorlove

We do our best to help WOOD.FLOOR.HEROES do their best on every project. We listen to you and try to make your daily work easier and better. Because always making the perfect floor is hard enough. With our latest product innovations, on-time deliveries, helpful application videos, a dedicated website, cleaning & care leaflets for your customers and much

more, we make your wishes come true and stand behind our professional partners.

Share your most beautiful floors and your love for craftsmanship with the eukula community - we look forward to your references! Tag your photos on insta or send an email to
